# HIGH SPEED INKJET PAPERS

## JETSCRIPT DL 2284

Premium Inkjet Coated Paper

JETSCRIPT is a premium quality bright white matte coated paper specifically designed for high-speed production environments. This paper requires no pre or post coating to run on today's most advanced printing systems. Mitsubishi's superior coating technology allows for maximum production speeds, lowered ink consumption and unprecedented dry times. Exceptional color gamut, fine line detail and true color matching make JETSCRIPT *the* paper of choice for high profile jobs. It can be used for a wide range of Commercial print applications where high quality is critical to capture attention and maximize consumer engagement.

### FEATURES AND BENEFITS:

- Compatible with Most Pigment & Dye Inks
- Revolutionary Coating Technology
- Matte Finish
- Unmatched Print Performance
- Superior Color Matching
- Maximum Print Speed
- Fast Dry

SPECIFICATION	TARGET
Basis Weight	216 G/M <sup>2</sup>
Paper Weight	80# COVER
Paper Thickness	280 μM
Paper Thickness	11 MIL
PPI	182
ISO Opacity	98%
Whiteness (CIE)	150
Finish	Matte
Structure	Coated 2-Sides

\*All values are targets

Best printing results achieved in a standard climate of 23°C and 50% relative humidity. For problem-free running, always store the product in original packaging and protect it from direct sunlight and moisture. Before using our medium, check its suitability on your printer and for your planned application. We can assume no liability resulting from technical changes in printers and/or inks. Changes in the product design due to technical developments will not be announced in advance.
